COVID-19 SECOND WAVE OFFICIAL ANNOUNCEMENT

September 25, 2020 – In the context of the official announcement of the COVID-19 second wave by the Institut national de santé publique du Québec and the increase in Covid-19 cases in Canada, confirmed by the Public Health Agency in Canada, Boiron Canada wishes to recall the following points which were made clear during the first wave of the pandemic in March 2020:

- It is certain that no Boiron's homeopathic medicine is specific for the **prevention** or **symptomatic treatment** of the COVID-19.
- It is certain that anyone believing they are infected with this virus should, **without any delay, consult a physician or contact their provincial health authorities**, in accordance with public health guidelines.

Boiron Canada continues to support the recommendations of the Government of Canada.
