

Your health deserves the greatest respect

**MEDIA ADVISORY**  
**For immediate release**

## **POSITION STATEMENT**

### **HOMEOPATHY & VACCINATION**

September 28, 2020 – In the wake of the upcoming 2020-2021 Influenza immunization campaign, led by the Public Health Agency of Canada, Boiron Canada would like to clarify the following points:

- Boiron Laboratories recognize the importance of vaccination in terms of public health and the fight against certain infectious diseases;
- There is no such thing as "homeopathic vaccination"; as no homeopathic medicines can generate the production of specific antibodies;
- Homeopathic medicines including Oscillococcinum and Influenzinum cannot be in any case, presented as an alternative to vaccination.

Boiron Canada strongly encourages Canadians to follow the public health vaccination schedule in their respective province, in accordance with the recommendations of their health professionals.
